

*Join us for a roundtable discussion on how credit unions can sustainably serve immigrant consumers*

## Financial Inclusion for Immigrant Consumers

January 16, 2015 | 9:00 am - 5:00 pm | USC CU | 3720 S Flower Street | LA, CA

The [Federation](#) and [Coopera](#) invite you to attend [Financial Inclusion for Immigrant Consumers](#), the launch of a national campaign to reach unbanked and underbanked immigrants in the US with credit union products and services linked to immigration and legalization efforts.

Of the 10 million unbanked households in the US, nearly 20 percent are foreign-born, non-citizen households. With President Obama's recently announced Executive Order that provides deportation relief for nearly half of the undocumented immigrants in the US today, credit unions face a historic opportunity to bring these unauthorized workers and their families into the financial mainstream.

Our agenda includes speakers from credit unions successfully serving immigrants to city immigration services and representatives of financial products and services designed specifically for immigrants and the undocumented.
