

Our Approach

By combining early employment experience with our powerful models, MyPath places youth on a path to upward mobility, as they are earning their first income. We employ three strategies to promote economic empowerment and financial capability.

ENGINEERING EFFECTIVE MODELS

Leveraging technology and peer relationships, MyPath designs, tests, and scales models that engage youth in banking, saving, and credit-building.

SHARING WHAT WORKS

MyPath shares our best practices and data-driven solutions by delivering technical assistance and training to support cities, nonprofits and financial institutions to integrate banking, saving and credit-building into youth employment systems.

ADVANCING POLICY CHANGE

MyPath engages youth savers and credit-builders as advocates in advancing policy and system-level change to improve opportunities and financial pathways for youth from low-income communities.

MyPath Money Platform

Planning for Growth

Looking to the future, MyPath is establishing new partnerships in cities across the nation to transform youth employment and workforce systems into platforms for saving and credit-building. Backed by research, we are expanding our proven models, placing thousands of low-income youth on a path to upward mobility.

MyPath's vision is that every low-income youth and young adult has the chance to make their first paycheck not just about income, but lasting economic security. We build strong foundations for upward economic mobility by connecting working youth from low-income communities to bank and build savings, credit and financial confidence.

About

MyPath is a San Francisco-based national nonprofit on a mission to power working youth with the financial knowledge and tools they need to achieve financial security and build wealth. We bring together city agencies, nonprofits and financial institutions to integrate our saving and credit-building models into existing youth employment programs. Our models, developed for and by youth, are the only youth financial capability interventions in the country that seamlessly integrate financial products into youth employment programs.
