

"Get My Payment" Online Tool

to submit direct deposit information and track payment status

The free online tool allows individuals to track the status of their Economic Impact Payment.

The tool allows taxpayers who filed their 2019 or 2018 tax return but did not provide their direct deposit information to provide it to the IRS, only if their Economic Impact Payment has not already been scheduled for delivery.

If "*Get My Payment*" indicates an individual's Economic Impact Payment is pending or has been processed, they cannot provide their direct deposit information.

Individuals who do not normally file a tax return can use the "*Non-Filers: Enter Payment Info Here*" tool on IRS.gov to submit basic personal information to quickly and safely receive their Economic Impact Payments.
